WHY DUBAI?

Dubai could be a booming metropolis with a large demand for an expert, The rise of metropolis is also over, however the growth of town has left space for health care professionals to maneuver in and extremely build a distinction to an exciting new city and its population.

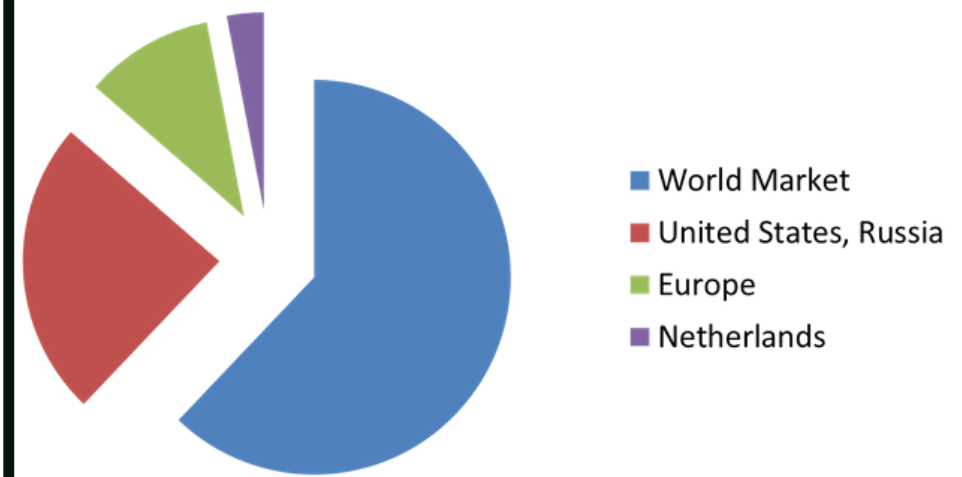

The Asian and Middle East market is contributing substantially to the increase of pediatric diet market as greater than one-third of the global market is accounted via this region. The global market for pediatrics is accounted for around \$83 billion of each 2013 and expected that would enhance at 7.8% CAGR in the future.
