HONG KONG

Tourist Attractions

Hong Kong is known the world over as a glamorous city and a top choice for luxury shopping. Hong Kong has one of the most impressive and recognizable skylines in the world. The dense collection of skyscrapers, both on the island of Hong Kong and in Kowloon, combined with the surrounding mountains and harbor set this city apart. The 34-meter-high “Big Buddha” sits above Lantau Island’s Po Lin monastery, which was a fairly secluded place until the statue was built in 1993. This is one of the largest Buddha statues of its kind in the world and took 12 years to complete. The size is astounding, both up close and seen from a distance. The Wong Tai Sin Temple is one of the newest in Hong Kong and also one of the most interesting. Not everyone thinks of beaches when they think of Hong Kong, but you don’t have to go far to find some incredible soft-sand beach. The beach at Repulse Bay is the most popular in all of Hong Kong, with beautiful views and a great place for swimming, although it’s very non touristy.

Important Dates

Abstract submission opens: September 09, 2019

Registration opens: September 09, 2019

Early bird registration: November 07, 2019

On spot registration: April 06, 2020
