After the successful completion of **1<sup>st</sup> Edition of Conference on Allergy, Asthma & Immunology at Heathrow / Windsor Marriott Hotel, London during June 2019 & 2<sup>nd</sup> edition in Dubai during October**, it is with great delight we announce & welcome you to the **3<sup>rd</sup> edition of Conference on Allergy, Asthma and Immunology**, scheduled during **June 22-23, 2020** at **Berlin, Germany**

The conference is being planned with sincere willingness to advance the knowledge and information related to the subspecialty of Allergy and clinical immunology in this fast growing world of science.

The scientific program provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in Integration with Medical Specialties. We, as organizers are working hard to cover the newer topics and latest updates in the field of allergy, asthma and immunology.

The Allergy-Immunology 2020 conference runs for 2 days, from **Monday 22 to Tuesday 23 June 2020** and it will deliver an outstanding scientific program, meaningful networking opportunities and memorable cultural experiences to delegates from 30+ countries.

*We look forward to welcoming you to Berlin!*

## Meeting objectives:

- To facilitate working out new methods of diagnosis and treatment of allergic and immunopathologic disease
- To help widely introduce scientific achievements, achievements in technology and pharmacology into practical allergology and immunology
- Accumulate and disseminate knowledge in the field of allergology and clinical immunology
- Allergy awareness and the impact of allergic diseases
- Advance the knowledge and practice in the field of allergy & clinical immunology

**This conference is being handcraft by practitioners in the Allergy & Immunology field to help you achieve the education you need to succeed in your craft.**

SciTech Conferences is global covering Life Sciences, Physical Science & Engineering, Social Sciences and Health Sciences Conferences. We are currently focused solely on Medical related Events, Conferences and Innovations. Our main emphasis is on managing meetings, events and conferences for the scientific research and medical fields. We have brought together a multidisciplinary team, composed of scientist from various reputed organizations and universities across the globe.

The Company of SciTech Conferences is a self-funded dedicated to supporting and inspiring the Health care community. We've built a wealth of knowledge in medical and scientific meeting planning and understand how to meet the complicated and specialized requirements scientific research events often demand. We bring together specialized knowledge on handling conferences with latest technology and effective communication to ensure excellence. We are committed to ensure that the changing demands of health care system are understood and the best results are delivered.

## Other salient features comprehend:

- Publishing of the accepted abstracts in our inordinately indexed journals
- Each of which will be labelled with a Digital Object Identification Number (DOI)
- Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.
- Career Guidance Workshops for students and early career researchers

## CONFERENCE PROMOTERS

Berlin is best known for its historical associations. As the German capital, internationalism and tolerance, lively nightlife, its many cafés, clubs, bars, street art, and numerous museums, palaces, and other sites of historic interest. Berlin is one of Europe's finest cultural hubs – but it's also the continent's premier venue for meetings and conferences. A modern powerhouse of art, culture, and entertainment, Berlin's youthful vitality and sophisticated atmosphere draw visitors from around the globe. Known for its exceptional value, Berlin allows meeting planners and delegates to get more value for their money than any other European city.

### Getting around in the city:

Situated in the heart of Europe, Berlin's national and international transportation links make it easily accessible from points around the globe, while extensive rail systems connect to cities across Germany and Europe. From the elevated railway known as S-Bahn, to public buses and underground U-Bahn trains, the next stop in Berlin is never far off. Additionally, about 7,000 taxi cabs are on hand to ferry travelers from one end of Berlin to another. Public transportation in Berlin is not only affordable but also always on time. One of Europe's most widely visited cities; tourism is also a major contributor to Berlin's economy. High-profile corporations such as Siemens and Deutsche Bahn are headquartered in Berlin.
