Call for Abstracts

The COPD 2020 Invites abstracts related to the new scientific research in the fields of lung disease, Respiratory disorders and its related aspects. We invite you to submit an abstract for consideration for oral, poster presentation and young research forums. In general we encourage more specific to the current research fields representing innovation and recent technologies. Abstract received will be reviewed by scientific committee from aspirants and categorized as speaker talks and poster presentations.

Why to join ?

- Meet Experts & Influencer Face to Face
- Networking Opportunities
- Learning In a New Space
- New Technologies
- Greater Focus
- Have Energy of Like-Minded Individuals
- Investing on Yourself & finally have Fun!

Entrepreneur conclave

The conclave intends to encourage entrepreneurs and provide opportunity to showcase and connect with global scientific community and industry.

Round table Discussion

The right conference can be a game changer for your research and professional career. More importantly, the Round table conversation brings the experts networking and create the goldmine of opportunities.

Workshop/ Interactive Sessions

Workshop sessions involve extensive interaction between presenters and participants around an idea or hands-on experience of a practice. These sessions may also take the form of a crafted panel, staged conversation, dialogue or debate – all involving substantial interaction with the audience.

Develop Networking with.....

- Industry leaders
- Product scientists
- Development managers
- C-level executive
- Academicians

Unique Services

- University Promotions
- Organizational collaboration
- Recruitment Drives
- Technical Trainings
- Technical Workshops at your Universities
- Career development sessions
- Post Conference Networking
- Scientific Success sessions
- Exhibitor Talk / Sponsor Talk
- Themed Paper Presentations
- Focused Discussions
- One-Day Registration
- Business meetings / one to one meetings

Poster Presentation Competition

A Poster session is a one-to-one informal discussion between presenters and their audience on a conference-related theme.

Aim :

- A poster is a graphically based approach to presenting research. In presenting your research with a poster, you should aim to use the poster as a means for generating active discussion of the research.
- Limit the text to about one-fourth of the poster space, and use "visuals" (graphs, photographs, schematics, maps, etc.) to tell your "story."

Visuals :

- Posters should include a title, name and affiliation of the presenter(s) labelled with lettering at least 1" (2.54 cm or 72 point) high from the top of the poster space.
- Before you design your poster, consider how much text should appear in the display.
- Present numerical data in the form of graphs, rather than tables (graphs make trends in the data much more evident). If data must be presented in table-form, KEEP IT SIMPLE.
- Visuals should be simple and bold. Leave out or remove any unnecessary details.
- Make sure that any visual can "stand alone" (i. e., graph axes are properly labeled, maps have north arrows and distance scales, symbols are explained, etc.).
- Use color to enhance comprehension, not to decorate the poster. Neatly coloring black-line illustrations with color pencils is entirely acceptable.

Eligibility :

- Candidates pursuing under graduation or Post graduation are eligible to participate in the Competition and win the International award.
- Age should not exceed 26 years

Logos :

Remember to advertise your Institution! Always include the University logo. Also include your Research Centre logo. Use high quality images – poor quality, low resolution images will make your poster look poor quality too.

Explore Paris, France

Paris, city and capital of France, situated in the north-central part of the country. The city is ringed with great forests of beech and oak; they are called the “lungs of Paris,” for they help to purify the air in the heavily industrialized region. Paris has long been an important world center of higher education. Paris has for centuries been regarded as the main cultural powerhouse of the Western world, a magnet for artists and intellectuals and a place where new ideas originate and art reigns supreme.
