

EuroSciCon 

5th Edition of World Congress & Exhibition on

Vascular Surgery

March 18-19, 2020

Berlin

Germany

Theme:

New & Emerging Techniques in Vascular Surgery

Invitation

Welcome to Berlin, the Capital & largest city of Germany and experience the vascular science illuminated as never before. EuroSciCon is proud to host the 5th Edition of World Congress & Exhibition on Vascular Surgery, March 18-19, 2020 in Berlin, Germany. The theme of the conference is New & Emerging Techniques in Vascular Surgery. Vascular Surgery 2020 will provide an unprecedented opportunity for vascular surgeons of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite surgeons, professors, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Vascular Surgery Conference is the perfect venue not only to dive into your particular vascular interests but also to expand the scope of your knowledge. 23 tracks are devoted to subjects such as vascular trauma, venous surgery, various vascular diseases such as Abdominal Aortic Aneurysms, vascular malformations, acute ischaemia, mesenteric ischaemia, congenital diseases of vasculature, as well as various surgical techniques including vascular bypass grafting, renovascular surgery, techniques of open vascular surgery, vascular imaging and anesthesia for vascular surgery.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Vascular Surgical forum in person is your active participation.

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

With over 25000+ vascular surgeons and pharmacologists accessing the website, Vascular Surgery 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Vascular Surgery 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 18-19, 2020

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

Who'd be attending?

5th Edition of World Congress & Exhibition on Vascular Surgery plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Vascular Consultants, Investigative Surgeons and Professors, Regulatory Professionals, Pharmacogenetic Professionals, Laboratory Directors and Chemists, Scientists and surgeons and others who stay plunged in learning and practice of the science of Vascular Biology

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Vascular Trauma
- Venous surgery
- Vasular diseases of Lowe Limb
- Carotid artery diseases
- Vascular diseases of upper limb
- Abdominal Aortic Aneurysms
- Thoracic Aortic Vascular surgery
- Thoracoabdominal Aortic vascular surgery
- Surgery for veins and lymphatic diseases
- Vascular Imaging
- Vasular Malformations
- Acute Ischaemia
- Renovascular surgery
- Mesenteric ischemia
- Congenital diseases of vasculature
- Lymphedema
- Venous insufficiency
- Vascular bypass grafting
- Techniques of open vascular surgery
- Anesthesia for vascular surgery
- Lower limb amputations
- Endovascular Surgery
- Applications of Vascular Surgery
- New Approaches in Vascular Surgery
- Recent Advances and Development in Vascular Surgery
- Fundamentals of Vascular Surgery
- Atherectomy
- Balloon Embolectomy
- Angiosarcoma
- Rheumatoid Vasculitis

About Destination Berlin

Berlin is the capital and the leading city of Germany, as well as one of its 16 constituent states. Berlin is the nation's capital and busiest city. It is mythological for its exceptional variability of attractions, its prosperous cultural scene and a way of life that's both fast-paced and relaxed. Berlin is a world city of ethos, politics, broadcasting and science. Its frugality is based on advanced firms and the provision sector, incorporating a diverse range of creative industries, research facilities, media corporations and convention venues. The metropolis is a popular tourist destination. Substantial industries also include information technology, medicines, biomedical engineering, clean tech, biotechnology, building and electronics. Berlin is home to world-prominent universities, orchestras, academies and performing venues, and is host to many sporting events.

The city is well known for its festivals, diverse architecture, nightlife, contemporary arts and a very high quality of living. Since the 2000s Berlin has seen the development of a cosmopolitan empire-building scene. Contrasts among historical buildings and modern architecture, and between the traditional and the modern are what set the Berlin apart from the rest. Berlin is a city of art, performers and museums. More than 170 museums, including those on the famous museum island, put the possessions of the world on public display. Nowadays, people look to Berlin for the modern trends in lifestyle, music and art. Attracted by this flare-up of inventiveness, growing numbers of performers are arriving in the city from around the world, making it one of Europe's most sensational destinations.

Tegel International Airport located in the north-west of the city is the main airport for international carriers and a hub for domestic flights on Lufthansa.

Berlin is a huge city. One can make use of the excellent bus, tram, train and underground services to get around. Taxi services are also easy to use and a bit less expensive than in many other big Central European cities
