4th Edition

Webinar on

Nutrition & Food Science

After the successful completion of our previous onsite and virtual conferences on Nutrition & Food science, we are extending our pleasure to invite you to our upcoming webinar – **4th Edition of Nutrition & Food Science** to be held on 08-09 November 2021 on the theme “**Let Food and Nutrition be The Medicine**”

In the times of COVID – 19, we, the management, Organizing Committee Members and staff have tried to organize the conference on – site, but with the announcement of governmental mandated closures & shutdowns, travel restrictions, social distancing and health & safety of our participants, it has made web based. It would have been irresponsible to go ahead with an international meeting in this region with high levels of spread and severity. And also with the continuous notifications from WHO stating that large gatherings will become an high risk for the spread of infections. We assure that you will enjoy and interact in the webinar virtually.

About Conference

The webinar provides a unique platform to students, academics, and practitioners, from all over the globe from different parts of the world to present their profound insights on the most modern discoveries and advancements related to Food science, Nutrition and impacts of nutrition in COVID 19. The webinar focuses on the recent developments in the food industry, nutrition needed in the times of COVID 19, immunity related research and other experiments.

We have also received a good response from our previous webinar on the Nutrition & Food Science. Through the series of interactive panel discussion, keynote sessions, speaker sessions, the conference will deliberate on various issues and challenges in innovations, new technologies, applications, research in food and nutrition industries.

The webinar provides deeper understandings on various topics which include Food Chemistry, Food Safety, Food Microbiology, Food Toxicology, Food Quality, Agricultural Research, Dairy Science, Nutritional Benefits, Food Engineering, Immunity and other challenges that faced during COVID 19 times.

Aim

Food Virtual 2021 is mainly designed to offer diverse sessions that address the theme “Let Food and Nutrition be The Medicine” and explore advances in research and education in relation to disparities as well as a breadth of other topics. The field of Nutrition have not only helped the development in different fields in science and technology but also contributed towards the improvement of the quality of human life to a great extent. All this has become possible with the different discoveries and inventions leading to the development of various applications. Many advances have been taking place. More over present technologies have added new dimension to the field of Nutrition. This will enable scientists to find answers they have been searching for. The business entrepreneurs can bring it to the market and the students can get inspired to learn more and work towards benefit of mankind. Today the market analysis of this field indicates that Government, private institutes and many others are investing more in this field as this has assuring future. The industrial output from the scientific developments in this filed are promising.

Benefits

- Time saving and cost effective
- Extensive reach to international audience
- Global networking: In transferring and exchanging Ideas
- Develop connections and collaborations
- Our conference will arrange best online platform for your research through oral presentations.
- Best chance to share your ideas with eminent people the field of your research.
- Develop and improve your research skills.
- Young Scientists will get appropriate and timely information by this Online event.
- Accepted abstracts will be published in Conference proceedings and Google Scholar
- Flexible and Convenient to attend & share your views from home
- E-Certificate of participation/presentation
- You will receive your presentation copy (video) after the webinar

Scientific Sessions

- Human Nutrition and Dietetics
- Malnutrition
- Nutrition, Health and Aging
- Nutritional Deficiencies
- Nutrition and Food Science Research
- Nutrition & Diabetes Mellitus
- Nutraceuticals and Nutrition Supplements
- Probiotic Nutrition
- Nutritional Epidemiology
- Nutrigenetics and Nutrigenomics
- Food - Obesity and Weight Management
- Food Microbiology & Food Borne Diseases
- Genetically Modified Food
- Pediatric Nutrition
- Clinical Nutrition
- Food & Nutritional Disorders
- Food Biotechnology
- Gut Health and Microbiota
- Sports Nutrition and Exercise Metabolism
- Nutrition and Cancer
- Food Nanotechnology
- Food Process, Preservation, Analysis & Traceability
- Agricultural Food Science, Sustainable Food System
- Food Insecurity; Causes, Consequences & Remedies
- Dairy Science & Fermentation Technologies
- Food Quality, Safety, Regulations & Public health
- Food Chemistry
- Food Engineering & Waste Management
- Hi-Tech Agriculture and Food Production
- Next Generation Challenges in Food Technology

Important Dates

- ✓ Conference Dates: 08 - 09, Nov 2021
- ✓ Abstract Submission Opens: 12 July 2021
- ✓ Registration Opens: 15 July 2021
- ✓ Final Registration: 07 Nov 2021

Abstract Submission

Submit your abstract here:
www.globalepisteme.org/Conference/food/submitabstract

For any other information/queries please send mail at:
food@globalepisteme.com or
jennycaffrey7@gmail.com

Note: Abstracts can be submitted on any of the following topics for presentations to individual interest, but not limited to the above sessions. Additionally, abstracts with primary focus on Nursing are greatly encouraged and will be designated in the program as applied sessions.

REGISTRATION

		EARLY BIRD REGISTRATION	MID REGISTRATION	LATE REGISTRATION	FINAL REGISTRATION
ACADEMICS	ORAL	\$199	\$249	\$299	\$349
	POSTER	\$129	\$179	\$229	\$279
	DELEGATE	\$299	\$349	\$399	\$449
BUSINESS	ORAL	\$349	\$399	\$449	\$499
	POSTER	\$229	\$279	\$329	\$379
	DELEGATE	\$399	\$449	\$499	\$549
STUDENT	ORAL	\$139	\$189	\$239	\$289
	POSTER	\$99	\$129	\$149	\$199

GUIDELINES FOR VIRTUAL PRESENTATION

- After registering in our conference you will receive a confirmation mail with details.
- Presenters should check the link/site received from the organizers before 30 Minutes. If there is any inconvenience, should be immediately informed to the organizers for error free presentation.
- Make sure that your internet speed is high to avoid interruptions.
- At the start of your session, identify yourself with your Name and Affiliation.
- If you are a presenter, be ready with your presentation slides (PPT) when the meeting starts.
- Before the meeting you need to test your presentation i.e, testing audio, camera and sharing presentations on the screen.
- Presentation should spotlight the research highlights.
- Sit in a quiet location where you will have good network access with no disturbance. Mute your audio while others are presenting.
- Please plan your presentation; as such you can give 3-5 minutes time for Q&A session at the end of your talk.
- Be in available in the meeting from conference start time on day of your presentation.
- And for the posters presentation you should be prepared in advance to the conference.
- Background should be professional with bright lighting and the environment should be calm (Echo free)
- Raise hand tool can be utilized to notify your presence in the virtual room
- Presenters will be requested the clarify the questions raised by the registered attendees

TESTIMONIALS

Margaret Nyabera, EDARP, Kenya

Am very grateful to have the opportunity of attending such a teaching and wonderful conference, I was able to learn a lot from different presenters, thank you for organizing it and for the certificate, the challenge is it's expensive for people coming from Africa due to our currency, anyway keep the fire burning.

Dell Mars, Southeastern Louisiana University, USA

Presentation went well. Thank you for being patient and supporting of my journey.

Jessica Hemberg, Abo Akademi University, Finland

I am happy with the webinar and think that it went quite smooth, without any major technical issues as you also mentioned. The sessions were interesting and from various countries and nursing contexts, so it was very informative and inspiring. So thank you again for arranging it!

Verdier Julie, Institute of reconstructive surgery locomotion and sports ICR - Clinique saint Antoine Nice, France

Thank you so much for this opportunity! It was a great experience to work with you! I will be very happy to cooperate with you again for a future course! Thank you again for your help and your support!

Merima Ameti, University Psychiatric Clinic Ljubljana, Slovenia

Thank you for such an outstanding conference. I believe you must feel relieved to have successfully completed such an event. I am very sorry that I could not personally hand over my presentation; however, I would personally rate it with the highest grade.

Beata Janoszka, Medical University of Silesia, Poland

The Webinar on Nutrition & Food Science was really interesting for me and well organized.

Hiroko Seki, Tamagawa University, Japan

I'm so glad. I'd like to join this conference again in the future.

Siniša Franjic, Independent Researcher, Bosnia and Herzegovina

First of all, thank you at all. You accepted me despite my life problems. You treated me humanely and such your approach to me is priceless. I am very grateful to you for that. I am very happy with the webinar. Fortunately, there were no technical problems on my part and my computer was working normally. I have to emphasize this to you because I have had some technical problems in the last twenty days or so. I had a situation where the screen just freezes and nothing can be done until the computer restarts. I was afraid that something like this could happen during the webinar. Fortunately, everything went well.

Caroline Ponmani, Havering and Redbridge NHS Foundation Trust, UK

Thanks so much. Was a lovely experience.

Michael Oberst, Kliniken Ostalb, Germany

First of all I would like to congratulate for the perfect organisation and the very smooth webinar ;-)) !

Andréanne Bergeron, University of Montreal, Canada

The conference went well. It was nicely organised and the presentations were interesting.

Todd Brown, Sarasota Military Academy, USA

Overall, the conference was great considering it was fully virtual. The only critique I would have is that the communication was slightly better leading up to the conference. Other than that, all was great.

Bassam Abdul Rasool Hassan, AL-Rafidain University College, Iraq

Really appreciate your concern and support. It was a pleasure to collaborate with you and your scientific team, Sure, I'd like to collaborate in the future.

Xiaoli Zou, Dalian Municipal Friendship Hospital of Dalian Medical University, China

Thanks for this interesting conference. It is really my honor to join in this international conference and thanks for your kindness and work to make my first time so beautiful and unforgettable.

Rebeca André, BioISI, FCUL, Portugal

It was a pleasure to participate. Thank you for the opportunity. Although two congresses were joined in 1, the conference was very interesting and well organized. I'll be waiting for an opportunity for collaboration.

Jian-Yong Wu, The Hong Kong Polytechnic University, China

I am pleased to receive the certificate and processing. The webinar was well organized and successfully completely. One of the most unique features is the presentations on a wide range of topics and from diverse professionals such as academic, medical/hospital and industrial.

Erik Froyen, California State Polytechnic University, USA

Thank you for the book and certificate. I appreciate your nice message. I enjoyed the experience! If possible, I would like to participate in the next Nutrition Webinar.

Mina T Kelleni, Minia University, Egypt

You and your distinguished global episteme have arranged an amazing Webinar. I am totally grateful for your patience and kindness.

Cristina Motta Ferreira, Fundação Hospitalar de Hematologia e Hemoterapia do Amazonas – HEMOAM, Brazil, Egypt

"I found the webinar on Infectious Diseases and Corona Virus very educational, with excellent lectures. We also had the opportunity to learn about studies carried out in other countries. My only suggestion is, that in future meetings, a specialized technician can help researchers to insert their presentations."

Huang Wei Ling, Medical Acupuncture and Pain Management Clinic, Brazil

I, Huang Wei Ling, infectious disease doctor from Brazil, am immensely grateful for the high quality work carried out by the staff that make up the Webinar CORONA & INFECTIOUS DISEASES, that was held on 26 - 27 JULY 2021. Special thanks to Jessie Carol that was so lovely conducting all the emails to organize this event with so many professionals from all over the globe such as physicians from Australia; Germany; Italy; Israel; Egypt; Belgium; USA.
