INVITATION

Dear Colleagues

Following the prolific success of Primary Healthcare 2021, We are delighted to invite the researchers & experts from the arena of Healthcare to attend the **"2nd World Congress on Primary Healthcare and Medicare Summit" – PHC22 on November 07-09, 2022 at Paris, France.**

The Conference motto **"Promulgating the Outcomes and Research in field of healthcare"** captures the collaborative spirit of the Conference which will be both a scientific and educational event.

The Conference offers unique space for the global healthcare community to explore, build new global collaborative networking opportunities and forge new pathways in the healthcare transformation.

The conference facilitates dialogue across the healthcare community to tackle a wide range of healthcare challenges ahead - from shaping the future of healthcare industry policy to activating a successful healthcare transition around the world. The PHC22 is an ongoing conversation about the business of modern healthcare. Our mission is to connect professionals from the globe to catalyze relationships that transform the delivery, affordability, and quality of healthcare.

The PHC22 offers all participants an opportunity to benefit from Plenary Lectures, Keynote Addresses, Review and Forecast Papers, Poster Presentations and Panel discussions.

We look forward to your active participation in the Primary Healthcare 2022, as well as to welcoming you to **Paris, France on November 07-09, 2022** – please mark your calendars!

Regards,
Primary Healthcare 2022

Thank you for inviting me. I enjoyed the conference and looking forward to future meetings.

Paris is unarguably one of the most beautiful cities in the world, the capital of France, its nickname “the City of Light”, earned during the Enlightenment, remains appropriate, because Paris has retained its importance as a centre for education and intellectual pursuits. There are a thousand things to do and see in Paris, and no amount of time will suffice: Climb to the top of the Eiffel Tower, stroll down the Champs Elysées, visit the Louvre, and take in a variety of shows and exhibitions. Nowhere else on earth makes the heart swoon like the mention of Paris. The city entices with its magnificent art, architecture, culture, and cuisine, but there’s a quieter magic waiting to be discovered as well: the quaint cobbled lanes, the sweet patisseries around the corner, and the cosy little bistros that beckon with a glass of Beaujolais. Get ready to make Paris your own.

Healthcare: Health care and emergency medical service in the city of Paris provided by Assistance publique – Hôpitaux de Paris (AP-HP) which is a public hospital system and largest hospital system in Europe.

Climate: Paris has a typical Western European oceanic climate. Overall climate throughout the year will be mild and moderately wet.
