# ABOUT ROME

Rome is a city and special commune in Italy. Rome is the capital of Italy and also of the homonymous province and of the region of Lazio. With 2.7 million residents in 1,285.3 km<sup>2</sup> (496.3 sq. mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The urban area of Rome extends beyond the administrative city limits with a population of around 3.8 million. Between 3.2 and 4.2 million people live in Rome metropolitan area. The city is located in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of the global city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets.

April is one of the best months to visit Italy, a lovely time when spring blossoms in full force bringing pleasant temperatures, flowers and fragrant air. Although you'll need a warm coat, weather this time of year hardly ever dips below freezing.

Taxi is the fastest and most comfortable transport means to travel between airport and any venue in city. Italy airport taxi drivers will serve you at anytime of the day, bring you straight to your hotel and help you with your luggage.
