

13th International Conference on **Human Genetics and Genetic Diseases**

Vancouver, Canada

April 24-25, 2023

humangenetics@eventsupporting.org

Invitation

Vancouver, Canada

Dear Attendees,

We are glad to announce the **13th International Conference on Human Genetics and Genetic Diseases** to be held in **Vancouver, Canada** from **April 24-25, 2023** organized by **Conference Series, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the Genetic Scientists, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Human Genetics & Genetic Disorders, Human genetics Molecular Genetics Gene Therapy Medical Genetics Genetic Disorders Epigenetics Stem Cell Research Stem Cell Research Cytogenetics Clinical Genetics Cancer Genetics Genetic Counseling Biochemical Genetics Genomics Population Genetics Developmental Genetics Pharmacogenetics Immunogeneticm Human Genetic Engineering Gene Therapy and Genetic Counseling Nutritional Genomics Stem Cell Research and Therapy Genomic Medicine & Molecular Diagnostics Oncogenomics and Cancer Heredity Ethical & Social Implications of Gene Editing and will be available to discuss with you the latest issues and trends in ***Novel Approaches to Unraveling the Human Genome and Genetic Disorders.***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Human Genetics & Genetic Disorders Congress to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Vancouver** this April.

Sincerely,

Human Genetics 2023

Organizing Committee

Market Analysis Report

Scope and Importance of Human Genetics & Genetic Diseases:

Scope: The Scope of the conference is to gather all the Doctors, Researchers, Business Delegates and Scientists to approach and deliver all the attendees about the latest scientific advancements on the respective sphere. This Human Genetics & Genetic Diseases Conference is the premier event focusing on understanding individual and organizational behaviour and decision-making related to genetics and molecular biology, biotechnology, pharmaceuticals, medicals and academia.

Importance: Conference on Human Genetics & Genetic Diseases is a much celebrated conference which basically deals with the latest research and developments in the sphere of genetics and molecular biology. This Conference will provide a perfect platform to all the International mix of leading Research Scholars, and Scientists achieved eminence in their field of study, research academicians from the universities and research institutions, industrial research professionals and business associates along with Ph.D. Students to come and inform all the attendees about the latest scientific advancements on the respective sphere.

Today's Market Study of Human Genetics & Genetic Diseases in USA | Europe | Middle East | Asia Pacific

USA: The USA Genetics market is poised to reach USD 19.99 Billion by 2020, growing at a CAGR of 9.9% during the forecast period of 2015 to 2020.

Europe: The Europe genetic testing market is estimated at USD 1.22 billion in 2016, and is projected to reach USD 1.8 billion by 2021, growing with a compound annual growth rate (CAGR) of 8.2% during the forecast period, 2016-2021.

Middle East: The global Human Genetics & Genetic Disorders identification market was valued at an estimated \$419.4 million in 2013 and is expected to grow at a CAGR of 13.9% in the next five years.

Asia pacific: The global gene expression analysis market is projected to reach USD 5.30 Billion by 2020 from USD 3.39 Billion in 2015, at a CAGR of 9.3% from 2015 to 2020. The primary growth engine in this region is China, which is expected to register a growth rate of 13.2% in the forecast period.

Our International Open Access Journals

- **700+** Leading-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+**  Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number (DOI)** provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manuscripts in our Open Access Journals

Special Issues : All accepted abstracts will be published irrespective Conference Series Journals

Each abstract will be provided with digital Object Identifier by  Crossref

About Conference

Human Genetics 2023 Conference website is attracting **25000+** Geneticists, Molecular Biologists, Medical Professionals online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Human Genetics 2023 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Conference Website: <https://humangenetics.conferenceseries.com/>

Purpose

13th International Conference on Human Genetics and Genetic Diseases is an arena for interdisciplinary exchange among professionals in the fields of Genetics, Molecular Biology and Genomics.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Geneticists & Genetic Researchers present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Human Genetics & Genetic Disorders and Genomics
- Discuss and apply recent research findings related to Human Genetics & Molecular Genomics
- Reflect on the place of critical distance in Human Genetics & Genetic Disorders and Gene therapy

Who should attend

13th International Conference on Human Genetics and Genetic Diseases is exclusively designed for Geneticists, Scientist, Genetic Researchers, Molecular Geneticists, Medical Professionals, Genetic Innovators & Engineers, R&D section, Cell Biologists, Genetic Councilors and others engaged in endeavors related to Genetics and Molecular Biology Research Centers..

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies**. All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the DOI provided by

Major sessions

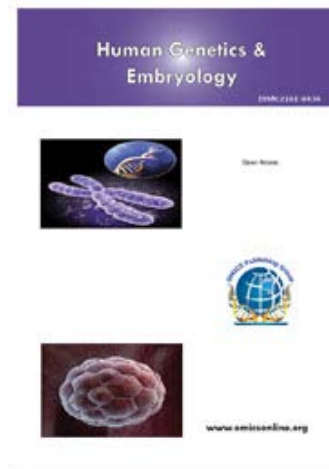

- Human genetics
- Molecular Genetics
- Gene Therapy
- Medical Genetics
- Genetic Disorders
- Epigenetics
- Stem Cell Research
- Stem Cell Research
- Cytogenetics
- Nutritional Genomics
- Stem Cell Research and Therapy
- Genomic Medicine & Molecular Diagnostics
- Clinical Genetics
- Cancer Genetics
- Genetic Counseling
- Biochemical Genetics
- Genomics
- Population Genetics
- Developmental Genetics
- Pharmacogenetics
- Immunogenetics
- Human Genetic Engineering
- Gene Therapy and Genetic Counseling
- Oncogenomics and Cancer Heredity
- Ethical & Social Implications of Gene Editing

About Conference

Vancouver, Canada

Supporting Journals

- Hereditary Genetics : Current Research
- Journal of Hereditary Genetics and Gene Therapy
- Human Genetics & Genetic Disorders and Embryology

Media partners/Sponsors

Vancouver is a major city in western Canada, located in the Lower Mainland region of British Columbia. As the most populous city in the province, the 2021 census recorded 662,248 people in the city, up from 631,486 in 2016. The Greater Vancouver area had a population of 2.6 million in 2021, making it the third-largest metropolitan area in Canada. Vancouver has the highest population density in Canada, with over 5,700 people per square kilometer. Vancouver is one of the most ethnically and linguistically diverse cities in Canada: 46 percent of its residents are not native English speakers, 44 percent are native speakers of neither English nor French, and 51.6 percent of residents belong to visible minority groups.

Vancouver is one of the most livable cities in Canada and in the world. In terms of housing affordability, Vancouver is also one of the most expensive cities in Canada and in the world. Vancouver plans to become the greenest city in the world. Vancouver is the city's urban planning design philosophy.

Indigenous settlement of Vancouver began more than 10,000 years ago, and the city is on the traditional and unceded territories of the Squamish, Musqueam, and Tsleil-Waututh (Burrard) peoples. The beginnings of the modern city, which was originally named Gastown, grew around the site of a makeshift tavern on the western edges of Hastings Mill that was built on July 1, 1867, and owned by proprietor Gassy Jack. The original site is marked by the Gastown steam clock. Gastown then formally registered as a townsite dubbed Granville, Burrard Inlet. The city was renamed "Vancouver" in 1886, through a deal with the Canadian Pacific Railway (CPR). The Canadian Pacific transcontinental railway was extended to the city by 1887. The city's large natural seaport on the Pacific Ocean became a vital link in the trade between Asia-Pacific, East Asia, Europe, and Eastern Canada.

Vancouver has hosted many international conferences and events, including the 1954 Commonwealth Games, UN Habitat I, Expo 86, APEC Canada 1997, the World Police and Fire Games in 1989 and 2009; several matches of 2015 FIFA Women's World Cup including the finals at BC Place in Downtown Vancouver,^[16] and the 2010 Winter Olympics and Paralympics which were held in Vancouver and Whistler, a resort community 125 km (78 mi) north of the city. In 1969, Greenpeace was founded in Vancouver. The city became the permanent home to TED conferences in 2014.
