About Venue:

Once a small fishing village in the Persian Gulf, Dubai is today one of the smartest metropolises in the world. One of the seven emirates that make up the United Arab Emirates, Dubai is home to almost 200 identities and offers a really critical encounter to all guests. Whether it's by the banks of the Creek, or at the top of the Burj Khalifa, the world's altitudinous structure, Dubai lives and breathes a sense of possibility and invention. And with an unequalled bank, beautiful desert and magnificent cityscapes, recollections are just staying to be made then. A Brief History of Dubai In 1833, the Al Maktoum lineage established the Dubai Fisheries Agreement, continuing to rule Dubai forever. During 1892, Pearl and maritime business begin to prosper. Dealers from across the world arrive in Dubai to profit from inconceivable deals and rates. In 1912, Dubai's first academy, Al Ahmadiya is erected in Deira. Al Ras's original structure remains open as a gallery, showing what life was like over a century ago. In 1958, Sheikh Rashid caddy Saeed Al ruled the emirate 32 times and developed a hotspot for transnational trade. [\(click here for more\)](#)
