CLINIC DIABETES Course

Clinic Diabetes is an interactive Course to be conducted by **Key Opinion Leaders (KOLs)** in the respective fields. It will be based on discussion of relevant clinical cases to define best option in the management of diabetes, associated diseases and complications.

The Course would be of interest to Healthcare Professionals involved in managing diabetes, its complications, and associated diseases.

Format of CLINIC DIABETES Course

The Course is divided into Sessions. **Each session shall start with short presentation to highlight specific feature and significance of a condition followed by presentation of 1-3 relevant cases for discussion by a Panel of KOLs** in the specific field(s) of interest.

Twelve sessions are planned*

Session #1	Diagnosing IFG, IGT and Diabetes
Session #2	Treating Diabetes 1: Oral Medications
Session #3	Treating Diabetes 2: Injectables
Session #4	Managing Diabetes in Pregnancy
Session #5	Treating Associated Conditions: Hypertension and Hyperlipidaemia
Session #6	Diabetes in Children
Session #7	Treating Associated Conditions: Obesity in Diabetics
Session #8A	Microvascular Complications: The Eyes
#8B	Microvascular Complications: The Feet
Session #9	Diabetic Kidney Disease: Prevention and Management
Session #10	Strategies for Diabetes Remission
Session #11	Diabetes with Heart Disease
Session #12	The Complicated Cases: Prioritising and Optimising Management

*Subject to change

Benefits of the Course for Participants

1. Receive Certificate of Attendance
2. A chance to interact with experts in the management of diabetes and associated diseases
3. Be familiar with anti-diabetic drugs and their use
4. Learn management of diabetes and associated conditions
5. **Chance to have free registration and be a resource person in the discussion**
6. **Chance to win cash prizes, hampers and vouchers @ Lucky Draws**
7. CPD points shall be applied

Certificate of Attendance for all Delegates

CPD
points will be applied

Audience participation

The audience is expected to participate in the discussion by asking questions and providing opinions orally or via Slido.

Participants Input

Participants are encouraged to submit their (problem, interesting) cases for discussion.

Submitted case should have these main components

1. Patient's demographic profile
2. Initial presentation consisting of history, clinical findings and investigation results and treatment
3. Progress records to include relevant history, physical examination findings, investigation results and treatment. 3-5 progress records are preferred, including the final entry.

Cases must be submitted at least **1 month** before the Course for vetting by the experts.

Participants whose cases are **ACCEPTED** for discussion will be given free registration to attend the Course. He/she will also be invited to provide additional information as resource person, during the case discussion.

Objectives of the Course

At the end of the Course, Participants are expected to

1. Understand indication for use of established and newer antidiabetic agents, both oral and injectables
2. Be familiar with management of common types of diabetes and associated diseases
3. Appreciate use of newer diabetic medications with non-glycaemic activities
4. Be able to apply knowledge gained during to Course to better manage patients with diabetes

LUCKY DRAWS!

Cash prizes, hampers and vouchers @ Lucky Draws

To encourage active participation and attendance, lucky draws shall be conducted at the end of the Course. Lucky winners may receive cash rebates or hampers from advertisers or vouchers from hotels.

To be eligible for the Lucky Draws, participants must visit the exhibitors' booths and table tops to receive their respective chops as proof of attendance.

CLINIC DIABETES COURSE ATTENDANCE

This Clinic Diabetes Course is opened to all healthcare professionals involved in the management of persons with diabetes and associated conditions, including Medical and Surgical Specialists, Medical and Health Officers, Pharmacists, Diabetes Educators, Medical Assistants, General Practitioners, Trainee Lecturers, Nursing Practitioners, Dietitians/Nutritionists

About the National Diabetes Institute (NADI)

The National Diabetes Institute (NADI) is established to provide a dedicated and comprehensive service for people with diabetes, to prevent and control diabetes, its complications and associated diseases.

NADI is a **non-profit, Non-Governmental Organisation (NGO)** managed by a Board of Trustees, comprising of Founding and Elected members and representatives from the Malaysian Endocrine and Metabolic Society (MEMS), Diabetes Malaysia (DM) and Ministry of Health (MOH), Malaysia with our former Prime Minister YABhg. Tun Dr. Mahathir Mohamad as Patron.

The main objectives of NADI are:

- to be a National Diabetes Education Resource Centre for the country
- to establish and run a comprehensive health facility including a National Diabetes Hospital for the management of diabetes and its complications
- to create and maintain a National Diabetes Registry
- to coordinate and conduct research in diabetes and related conditions
- to be the national coordinating centre for diabetes in Malaysia in respect to statistics, education, management, research, policy and planning on diabetes and associated diseases
- to prevent diabetes and associated cardiometabolic conditions such as high blood pressure, high blood cholesterol and heart disease through promotion of healthy lifestyle
